Version 0124

Hamac Trading Company Ltd (HTC) will celebrate 25 years supplying unique products to the marketplace in 2024. Over the years we have evolved and created 3 distinct product divisions, GARDEN-DISPLAY-HANSA. Since 2022 we have made regular shipments to the Middle East and with our partner based in the Netherlands, our full portfolio is now available across Europe.

Our Offices, Showrooms and Warehouses are based in Northern Ireland giving us untethered access to the UK marketplace whilst remaining part of the EU customs union for seamless access to Ireland & mainland Europe.

Hamac are the Sole UK, Ireland & Middle East Distributor for Hansa Creation Retail & Display products which are recognised as the Global Leader in Plush Animal Reproductions.

Hansa has created more than 8,000 realistic animal reproductions all finely crafted and hand sculptured.

They work closely with Museums, Conservation Organisations, Educational & Zoological Institutions to make Hansa Creation products unique. All products are anatomically scaled to actual life size from the smallest bird to a 5 metre (16 foot) tall Giraffe.

Hansa Creation conduct Educational Tours for students to learn about animals' habitats and behaviour, to highlight the dangers they face through global warming, irresponsible destruction of forests and the need for animal protection. Every sculptured creation is filled with fibre made from recycled PE bottles, conserving our natural resources. All raw materials have been carefully designed and tested to comply with the relevant safety standards world-wide.

Hansa Creation philosophy is... CONSERVATION & EDUCATION = PRESERVATION

Hamac has 3 Divisions

HANSA CREATION

HTC are the sole UK, Ireland & Middle East Distributors for Hansa Creation who are recognised as the "World's most Realistic" brand of Plush Animals. For Hansa we Distribute a full range of Display and Retail products. Products range in size from the smallest Mouse to a Lifesize "Animatronic" Giraffe.

All Hansa products are filled with stuffing made from Recycled PE Bottles

HANSA *Creation* **GO GREEN**
 "HANSA'S ECOLOGICAL AWARENESS AT WORK"

1 **RAW MATERIAL** – will start from discarded bottles.

2 The plastic chips are heated, sanitized to form into a liquid, then extruded and cut to length.

3 The bales of fibre are now opened by this machine...

4 so that our artisans can now sculpture the animals to their true to life appearance.

INTERNATIONAL PRODUCT SAFETY STANDARD

All products are manufactured in our modern 12,000 sqm. factory, no sub-contracting to ensure we exceed the required quality standards. HANSA has contracted the International Laboratory INTERTEK TESTING SERVICES to test and supply test certificates for each product. Complying with CE, EN71 parts 1, 2 & 3, ST JAPAN TOY ASSOCIATION STANDARD, AMERICAN ASTM F963-08, US CONSUMER PRODUCT SAFETY COMMISSION, GULF Mark and others.

Refer to pages two to seven for details.

Standard	Result
BS EN 71-1:2014 Safety of Toys Part 1: Mechanical and Physical Properties Excluding Clause 6: Packaging and Clause 7: Warning and Instructions for Use	Pass
BS EN 71-2:2011-A1:2014 Safety of Toys Flammability Test	Pass
